ABOUT ZURICH, SWITZERLAND

The city of Zurich, a global center for banking and finance, lies at the north end of Lake Zurich in northern Switzerland. The picturesque lanes of the central Altstadt (Old Town), on either side of the Limmat River, reflect its pre-medieval history. Waterfront promenades like the Limmatquai follow the river toward the 17th-century Rathaus.

Zurich Airport is located less than 10 km (6.2 mi) northeast of the city in Kloten. Zurich Airport has its own railway station, which is located underground. It is directly connected to Zürich and most of the major Swiss cities. Zurich Airport is served by more than 60 passenger airlines from around the world. It is also served by one cargo airline and is a hub for Swiss International Air Lines. There is also an airfield in Dübendorf.

There are 421,878 people living in Zürich making it Switzerland's largest city. Of registered inhabitants do not hold Swiss citizenship. Of these, German citizens make up the largest group with followed by Italians As of 2011, the population of the city, including suburbs, totaled 1.17 million people. The entire metropolitan area

Zoological Garden – The zoological garden holds about 260 species of animals and houses about 2200 animals. One can come across separate enclosures of snow leopards, India lions, clouded leopards, Amur leopards, otters and pandas in the zoo.

Botanical Garden – The Botanical Garden houses about 15,000 species of plants and trees and contains as many as three million plants. In the garden, many rare plant species from south western part of Africa, as well as from New Caledonia can be found. The University of Zürich holds the ownership of the Botanical Garden.

Chinese Garden – The Chinese Garden is a gift by Zürich's Chinese partner town Kunming, as remiscence for Zürich's technical and scientific assistance in the development of the Kunming city drinking water supply and drainage. The garden is an expression of one of the main themes of Chinese culture, the «Three Friends of Winter» – three plants that together brave the cold season – pine, bamboo, and plum.
