PHH 2023

TOP REASONS TO PARTICIPATE

Here are the top four reasons not to miss this meeting.

1. Discover new and cutting-edge research:

Gain insight about the latest trends in science and enhance your knowledge beyond your scientific field of interest. With a robust scientific program, this is a new path that links and organizes select sessions from the scientific program into cross-disciplinary themes.

2. Supreme visibility for your science:

The conference draws together both luminaries in their fields and up-and-coming talent. With participants ranging from students to academics to policy makers, there are plenty of opportunities to seek out funding for new research and get quality feedback before publishing your research in a peer-reviewed journal.

3. Network with your peers:

The meeting offers unlimited opportunities to network with your colleagues from diverse backgrounds and regions. Kick off the meeting with your peers at the opening ice breaker reception and connect with people who specialize in your field during daily networking breaks.

4. Advance your career:

The meeting can help advance your career and increase your worth to potential employers.

Registration

Registration includes

Mark your presence and meet your peers!

GLIMPSES OF PAST CONFERENCE

PAST CONFERENCE TESTIMONIALS

Donovan B. Yeates, Ph.D., CEO, KAER Biotherapeutics Corporation

Many thanks. I certainly enjoyed the conference. Being in Amsterdam is a special occasion and in wonderful weather. Again many thanks for the invitation.

Dr. Jan Jacques Michiels

This conference is critical to make sure that we understand current challenges that researchers and clinicians are currently facing, and being able to leap slightly ahead of them, so that by next year's conference, we'll have solutions and products that meet their needs.

Paul A. Sunseri, Psy.D.

Great for gaining insights into unpublished research and clinical findings, and a significant opportunity to network and problem-solve with colleagues.

Dr. Steven Walker

It was a very fascinating conference and had a wonderful experience to share about research with professionals in the field.

Koenraad Smets

I can certainly declare that the keynote lectures and oral presentations were generally of an excellent standard and although covering a wide range of topics, in my opinion, they were all relevant to the discipline of Pediatrics.

Annelies Keymeulen

I have never been to a conference where i felt like i got to know so many new people so well.

DATES TO REMEMBER

- **Conference dates: August 28-29, 2023**
- **Abstract Submission Opens: January 1st, 2023**
- **Registration Opens: January 1st, 2023**
- **On Spot Registration: August 28th, 2023**

ROME, ITALY

Rome today is one of the most important tourist destinations of the world, due to the incalculable immensity of its archaeological and art treasures, as well as for the charm of its unique traditions, the beauty of its panoramic views, and the majesty of its magnificent “villas” (parks). Rome is the capital of Italy and one of the most visited cities in the world. Rome played a significant role in World History. Before you'll visit this city, it's important to know what are the things that made Rome such a famous city.

Rome is known for its stunning architecture, with the Coliseum, Pantheon, and Trevi Fountain as the main attractions. It was the center of the Roman Empire that ruled the European Continent for several ages. And, you'll find the smallest country in the world in Rome; Vatican City.
